## The Essentials of Flax Cropping for Seed Production

H. L. DOLLEY, BOTANIST.

THE ESSENTIALS OF SUCCESSFUL CROPPING TO FLAX FOR SEED PRODUCTION MAY BE BRIEFLY STATED AS FOLLOWS:

1. Proper preparation of a firm seed bed.
2. Selection of a good strain or variety of seed.
3. Selection of seed of full strength, free from internal diseases.
4. Grading the seed which has been selected until only approximately perfect seeds remain, blowing or screening out all bits of straw, chaff and dust possible.
5. Seed disinfection—treatment of the seeds by formaldehyde solution in such manner as to destroy all germs of flax diseases that may rest on or be sticking to the individual seeds.
6. Sowing the seed at essentially the proper date.
7. Drilling the seed at the proper depth.
8. Pulling or in other manner destructive scattering weeds in the crop, the seeds of which are difficult to remove from flax seed after it is thrashed, as for example, mustard, false flax, French weed.
9. Harvesting crop at right date so that the seeds shall be mature & plump, but not lost thru shelling or injured by us, then
10. Cut it with a binder, where possible.
11. Thrash it at the first opportunity after the bales become dry.
12. Proceed to harvesting, select the portion of the field which is most evenly ripe, harvest, thrash and save it for your own seed and for seed for selling to others.
13. Store the seed so that it shall remain dry and cool.
14. Conduct a decent, home care rotation on your farm. Do not think of sowing flax more often than once in five years on the same land.
15. At least one well cultivated crop, on crop of hay and pasture should rotate between flax crops.

16. In using a binder and machine never use any unimpacted manure which has been made out of flax straw or by animals which have been fed flax screenings.

PREPARATION OF THE SEED BED We have discussed this feature in other bulletins, notably Press Bulletin 49 and 50. The science of flax cropping rests in the fact that the flax crop here is a firm sown ground. After deep plowing, make a firm and solid in any manner that you can arrive at that condition, just so you do not puddle the land while it is wet. Never work it when it is in good fifth. Then work it with any tool which will firm it down so that it is so firm that the disks of the drill will run cut deeper than half or three quarters of an inch below the surface, or the three-eighths of the whole drill will be in the soil.

NEW LANDS New sown lands give the best results when the breeding firmness, diskage, harrowing & drilling of seed and sowing are all done at one and the same operation. In the right time to sow to insure success because the land does not have time to dry out and the flax gets a free start in the soil and just turned up and worked. The surface work should be sufficient to leave the tracks heavy on the furrows all filled with new dirt. A heavy stone float or beat or roller should follow the drill for leveling and firming the soil upon the seed. If the breaking of the soil is to be done in two or three days before the sowing, then it is better to use the roller on the ground to be sown than to have it harrowed.

until time to sow the flax to prevent weed growth and loss of the moisture.

ON OLD LANDS: Good crops of flax can be raised on old cultivated lands but more care must be taken to firm down the soil. Preferably it should be sown upon newly broken pasture or hay lands as described in the last paragraph, but it will do well after corn or if the lands are free from weeds, it will give a splendid crop when surface worked and packed down again, and the seed drilled on this firm ground. In case the lands are foul with weeds the plowing should not be done until the time to seed the flax, and the work, as in case of new land should be done as a continuous process. First plow, followed by heavy packer, followed by peep-tooth harrow and further packing if necessary, then by the drill followed by stone float or further packing with roller if necessary.

SOILS VARY. Every man will need to consider his own type of soil and use the kind of cultivation or packing which will leave the furrows least liable to blow, but accomplish a durable even, very hard firm seed bed with just enough dirt to evenly cover the seed.

DATE OF SOWING: Sowing time in most regions should usually be the earliest date possible without having the young plants frosted in the spring. In North Dakota May 15 to June 1—sometimes the late sowing from May 25 to June 20 give big crops in the Northwest but this crop is liable not to ripen evenly in the fall after the cool nights set in.

DATE OF SEEDING: Sow not to exceed four or five quarts of good flax seed on any soil. If all the seeds grow, twenty to twenty-five pounds of seed will give plenty of plants. They will be smaller and give less seed production. It is not advisable to plant light weight, shriveled seed, sowing more seed to make up. That is the first principle of flax crop destruction. The weak seeds are the sick ones and carry death to their neighbors.

SEED SELECTION AND GRADING: Get a pure strain or variety of seed. If you can from your nearest neighbor. It should be bright and plump and every seed should grow in from three to four days when placed in a simple germinator. Perfect flax seed will show no mould in the germinator. No matter what seed you get or have, run it thru a good fanning mill or grader and clean it up. It is sown to sow seed that is to be sown shriveled, dark colored flax seed.

TREATMENT: Treat the seed with formaldehyde, using standard formaldehyde at the rate of sixteen ounces per bushel in forty gallons of water. Use a spray pump which will throw a forced, misty spray. As the seed is also moist in the fanning mill, throw it down on a light floor or canvas and allow it to dry until it is as dry as flour. It may be sprayed with the solution. Spray an 8-shovel sowing unit, or have put on at least one bushel of solution for each dry bushel of seed flax. Pile the flax up in a pile, cover with a canvas and it will retain its firmness for two to three hours. Treat in the morning to dry out and the flax gets a free start in the soil and just turned up and worked. The surface work should be sufficient to leave the tracks heavy on the furrows all filled with new dirt. A heavy stone float or beat or roller should follow the drill for leveling and firming the soil upon the seed. If the breaking of the soil is to be done in two or three days before the sowing, then it is better to use the roller on the ground to be sown than to have it harrowed.

# Easter Music

**BY ELLIOTT QUINLAN PRODUCTION**

**A READER WHO COULD**

Church music, which finds its best exemplification on Easter morning, has undergone marked development during the past few years. It is well within the memory of the present generation when almost the only music in our churches was congregational singing. This church singing by the assembled members was still in its infancy, the smaller churches, particularly those in small towns and rural districts, and just here it is confessed that there are a good many people who still believe that it is more devotional and inspiring than the color of the highest saluted singers. But that is all that the soloists have supplanted the congregation as the center of church music, and in many of those in the smaller towns.

The first entry of the soloists into this field came when one, two or a quartet of singers in each congregation who possessed the best voices were induced to specialize to the extent of preparing one solo for recitation each Sunday, as well as in effecting the congregational singing. Or, in some churches where the congregation was not strong vocally or the members were different about entering in the chorus singing, there was organized a choir of anywhere from eight to sixteen members that bore the whole burden of the musical responsibility just as do the vocal soloists in many of the Episcopal churches. Under this plan the soloists have almost invariably been members of the church where they sing and as a rule they have given their services free or have received very modest sums for their services.

While the above mentioned plan or one in which choir and congregational singing is combined is still in vogue in thousands of churches all over the country, a further step in musical development has been taken by most of the prominent and wealthy city churches. In these places of worship one may hear on Easter morning music of as fine a quality as can be listened to in any grand opera house. The secret lies in the fact that in these churches the musical music is provided by highly talented musicians who are engaged solely for their musical ability and without reference to anything else. Indeed, some of these soloists have come to be demanded as to a high standard of their singing member of the church in which they sing. They are also not a member of any church. They are also well known instances in which Catholic singers were engaged to sing in Protestant churches and vice versa.

Similar to the present state of the twentieth century has been the church in a very real sense. The use of the musical instrument has not been a mere accessory but has become a part of the church itself. The fact that in the case of some folk with old-fashioned ideas of the church is still the prevailing one. The fact that in the case of some folk with old-fashioned ideas of the church is still the prevailing one. The fact that in the case of some folk with old-fashioned ideas of the church is still the prevailing one.

## Spring Debility

Felt by so many upon the return of the weather in due to the impure, impure and unbalanced condition of the blood which causes that food failing and loss of appetite as well as the pimples, boils and other eruptions so common at this season. It is cured by the great constitutional remedy

## Hood's Sarsaparilla

which effects its wonderful cures, not simply because it contains sarsaparilla, but because it combines the utmost remedial values of more than twenty different ingredients. There is no real substitute for Hood's Sarsaparilla. If urged to buy any preparation said to be "just as good," you may be sure it is inferior, costs less to make, and yields the dealer a larger profit.

**NATURALLY.**

Will Be World Representation.

When the International Congress on Tuberculosis met at Rome last September, representatives of over 30 national and provincial associations organized to fight tuberculosis will be present. Among the associations which will be represented are the United States, Canada, Cuba, Trinidad, Ecuador, Guatemala, Honduras, Norway, Sweden, Denmark, Russia, Germany, Belgium, Holland, France, Switzerland, Portugal, Italy, Greece, Bulgaria, Hungary, Austria, New Zealand, Japan, Cape Colony, Argentina, Brazil, Chile, Newfoundland, Roumania, Uruguay and Venezuela.

**Grouch Still With Him.**

When Brown died he left an old friend living by the name of Jones, who always had a grouch. After Brown had been in heaven some time, he met Jones just coming through the gate and as they conversed did not look so happy and contented as he should. Brown asked him what was the matter. "Well," Jones said, "I told him that he was back at his boarding house and took her gas himself. Postmaster—Gave him an overdose, eh?"

**ITCHED SO COULD NOT SLEEP**

"I suffered from the early part of December until nearly the beginning of March with severe skin eruptions on my face and neck. At first I treated it as a trivial matter. But after having used castile soap, medicinal washings, cold cream, vanishing cream, etc., I found an relief what ever. After that I diagnosed my case as eczema, because of its dry, scaly appearance. The itching and burning of my face became so intolerable that I thought I should go mad, having no sleep regularly for months past, only by interludes, waking up now and then because of the burning and itching of my skin. After reading and fitting information of cures by the Cuticura Remedies, I decided to purchase a box of Cuticura Ointment and a cake of Cuticura Soap. After using them for a few days I recaptured a marked change in my condition. I bought about two boxes of Cuticura Ointment and one cake of Cuticura Soap in all, and after a few days I was entirely free from the itching and burning. My eczema was entirely cured. I have been using Cuticura Ointment daily. Hereafter I will never be without a cake of Cuticura Soap on my washstand. I highly recommend the Cuticura Remedies to anyone suffering from such a distressing condition. I hope you will publish my letter so that others may learn of Cuticura Remedies and be cured." (Signed) David H. Stone, care of publisher, Times, N. R., New York City, Jan. 2, 1910.

**Automobile Business for Sale**

**A Poor Weak Woman**

As the world is full of weak women, it is not surprising to find a weak woman. The fact is that many women are weak because of the lack of proper nutrition. The fact is that many women are weak because of the lack of proper nutrition.

## The First Easter Day

**BY STANLEY WATERLOO.**

Never so sweet a hush  
As all Judaea lay  
Never so fair a sun  
Rose o'er Jerusalem.  
Never so hovering close  
Did all of heaven lean  
As when approached the tomb  
The weeping Magdalene.

What marvel greets her eyes?  
Too tar-bedimmed are they!  
Behold her face and feet  
The stone is rolled away!  
Vacant the shattering death  
Which has been laid in rest.  
Whereon his body rest?

Only the ornaments white  
Where life, the God, had lain  
Only at head and foot  
The guarding angels twin,  
Of gentle gaze and grace,  
To speak of work fulfilled,  
Of him who died to save.

Now spread the mighty truth  
How all the earth divided!  
What glories come her way,  
The savior of the world!  
And now, the resurrection,  
As did his world-wide  
Came the first Easter day.

Always Makes Good

ALUMET BAKING POWDER

CHICAGO

Caution Baking Powder Co. Chicago

You'll be delighted with the results of Alumet Baking Powder. No disappointments as to heavy, soggy biscuits, cakes, or pastries.

Just the lighter, daintier, most uniformly raised and most delicious food you ever see.

Preventing a Disturbance. Colonel Brodwin was weary. He had had a very arduous day retreating from the enemy, and he wished to group his strength in order that he might retreat still further to the morning.

Bartholomew said to his new servant, "I'm going to snatch forty winks' sleep. Sit in my tent and see that I'm not disturbed."

Mac awoke. Five minutes later the scores of Colonel Brodwin were about the tent of a soldier named "Great Scott!" cried the colonel. "Are the enemy upon us?"

"No, don't fear," replied Mac, in a cheerful and reassuringly through his long hair. "It was only a mouse." "Great Scott!" cried the colonel. "Are the enemy upon us?"

"No, don't fear," replied Mac, in a cheerful and reassuringly through his long hair. "It was only a mouse." "Great Scott!" cried the colonel. "Are the enemy upon us?"

"No, don't fear," replied Mac, in a cheerful and reassuringly through his long hair. "It was only a mouse." "Great Scott!" cried the colonel. "Are the enemy upon us?"

## THE COWAN CASE

### ONLY A FEW RECOVERED

#### WITNESSES FOR DEFENSE

Prosecution Has Occupied Two Weeks and Heard Many Witnesses—Defense to Occupy Considerable Time.

Wednesday—Eighth Day. The main witness of the day was Scott Rex, the well known Grand Forks attorney. His testimony was serious and to the effect that he had seen Judge Cowan in an intoxicated condition in the morning during a term of court. He thought the judge's conduct was delayed by his condition and the judge was not in a position to conduct the trial, several times in course as to who the parties in litigation were and what the case was about. He also stated that he had seen the judge drunk.

Other witnesses followed the line of those who have so far testified on the question of drunkenness. This is the last day of testimony on this charge.

Thursday—Ninth Day. A great deal of the time this day was spent in argument by the attorneys for the prosecution and Senator Simpson.

Through his counsel Judge Cowan offered objections to the consideration of charges on the ground that it was not an impeachable offense. His objections in the objection by Senator Simpson. Yesterday the senate voted into order the debate was held. The records of the senate were ordered kept and published.

The witnesses of the defense were mostly laymen. They testified to the fact that they had seen Judge Cowan in a drunken condition in the morning during a term of court. They also testified to the fact that they had seen the judge drunk.

Other witnesses followed the line of those who have so far testified on the question of drunkenness. This is the last day of testimony on this charge.

## TRAIN LOAD AFTER SETTLERS

### ARE GOING TO CENTRAL CANADA.

The question of reciprocal trade relations between the United States and Canada has been a controversial discussion, and interest. Whatever the decision may have been, it is clear that the fact that the Canadian side of the line is a cultural situation is one that forces attention, and it has also brought forth the fact that it is well to face, that the American side of the border, there is a vasty increasing population to be fed with a somewhat decreasing proportion of food products. This article is intended to point out to those who may wish to become of those who can raise wheat, oats, barley, rye, and corn, and who at the least are in the position of being able to furnish the necessities of life to the increasing population will require. The immigration for the spring has now set in in great earnest, and yields have been made it is estimated that the greatest number of those who are to be settled in the west will be from Kansas City, Omaha, Chicago, Detroit, St. Paul and other points. Most of the immigrants are going to the provinces of Manitoba, Saskatchewan and Alberta. The reports that come from the different farming districts there show that the spring opening is well advanced and the prospects for a splendid crop this year are very good. In some districts good harvests are yet available and the yield of all farm lands has naturally had an increase, but it is still well below its earning capacity. The immigration branch of the Dominion Government has just published its 1915 illustrated booklet, which may be secured on application to the Department of the Interior, Ottawa, Canada, or any of the agents of the Dominion Government in this country. The booklet may appear elsewhere in this paper.

## Before Marriage an Operation

Please Read These Two Letters.

The following letter from Mrs. Orrville Rock will prove how true it is for women to submit to the dangers of a surgical operation which may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before. Then after all that suffering Lydia E. Pinkham's Vegetable Compound restored her health.

HERE IS HER OWN STATEMENT.

Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not do any work for a long time. My physician prescribed for several months the various pills, and at last sent me to Ann Arbor for an operation. It was there four weeks and came home worse than before. Then I took Lydia E. Pinkham's Vegetable Compound. I took it for two days and I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound. I have advised every woman who has suffered with any female complaint to try it. Mrs. Orrville Rock, R. R. No. 3, Paw Paw, Mich.

"There never was a worse case."

Rockport, Ind.—"I never never was a worse case of woman's ill than mine, and I cannot begin to tell you what I suffered. For over two years I was not able to do anything. I was in bed for over two years. The doctor said nothing but an operation would cure me. My sister advised me to try Lydia E. Pinkham's Vegetable Compound. I took it for two days and I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound. I have advised every woman who has suffered with any female complaint to try it. Mrs. Margaret Harbridge, R. R. No. 3, Rockport, Ind.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us in exactly the form in which we published them. For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard for the treatment of all female troubles. No sick woman does justice to herself who will not try this famous medicine. It is a safe, reliable, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her at once. She will gladly send you a full and complete copy of her book, "The Care of Women's Diseases," and address Mrs. Pinkham, Lynn, Mass.

"JUST FERRINST THE HILL"

Little Pointers for Those Who Feel a Desire to Seek the State of Matrimony.

The state of Matrimony is, one of the United States. It is founded by kissing and hugging on one side and gradins and ballets on the other. Its chief products are population, brooms, and playing out at night. It is the only state in which a man while trying to get Adam and Eve together, can get into a quarrel. The climate is sunny until you pass the tropics of housewifery, which is usually weathered in with such power as to keep all hands as cool as cucumbers. For the principal road leading to this interesting state is the first pair of blue eyes you see—like hazelins.

Getting the Worst of it. "Maggie had't very lucky in driving hazelins."

"No, he says he can't even change his coat without getting the worst of the deal."

Eye Trouble in America. "I have been suffering from eye trouble for several years. I have tried all kinds of medicine, but nothing has done me any good. I have been told that I should try Lydia E. Pinkham's Vegetable Compound. I took it for two days and I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound. I have advised every woman who has suffered with any female complaint to try it. Mrs. Margaret Harbridge, R. R. No. 3, Rockport, Ind.

Plants have movement without will, animals have the will to live, human beings have the will to live. Lydia E. Pinkham's Vegetable Compound is the only medicine that can cure all kinds of female troubles.

The Power of Pleasant Pills. Lydia E. Pinkham's Vegetable Compound is the only medicine that can cure all kinds of female troubles. It is a safe, reliable, and has thousands of cures to its credit.

Away with these troubles! Lydia E. Pinkham's Vegetable Compound is the only medicine that can cure all kinds of female troubles. It is a safe, reliable, and has thousands of cures to its credit.

## NATURALLY.

This is but a feeling show, and yet there's not a man that won't admit that the performance as he can.

An Ambassador's Note. A discoverer of the secret processes by which he was able to work out the formula which he returned home.

SASKATCHEWAN. I have been suffering from eye trouble for several years. I have tried all kinds of medicine, but nothing has done me any good. I have been told that I should try Lydia E. Pinkham's Vegetable Compound. I took it for two days and I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound. I have advised every woman who has suffered with any female complaint to try it. Mrs. Margaret Harbridge, R. R. No. 3, Rockport, Ind.

Vagaries of Finance. I understand you have paid the mortgage of your place. "Yes," replied Farmer (firmly). "Then do you contain of hard money?"

All neighbors have done the same thing. That leaves me with money on my hands that nobody wants to borrow.

Important to Mothers. Parents carefully, very little of the life and soul of a child is to be lost. It is the duty of a mother to see that her children are well and strong. Lydia E. Pinkham's Vegetable Compound is the only medicine that can cure all kinds of female troubles.

Charge Jailer With Theft. New York, April 11.—Frank J. Jones, a jailer, is charged with the theft of a pair of shoes from the jail. The shoes were found in the possession of the jailer.

N. O. Banks Progress. New Orleans, April 11.—The progress of the banks in this city is such that the public confidence in the banks is steadily increasing.

## Make the Liver Do its Duty

It is the duty of the liver to keep the blood pure and the system healthy. If the liver is not doing its duty, the blood becomes impure and the system is affected. Lydia E. Pinkham's Vegetable Compound is the only medicine that can cure all kinds of female troubles.

## The Shoe Dealer Who Sells Pla-Mate Shoes for Children

Pla-Mate shoes are the best shoes for children. They are comfortable, durable, and stylish. Lydia E. Pinkham's Vegetable Compound is the only medicine that can cure all kinds of female troubles.

Plants have movement without will, animals have the will to live, human beings have the will to live. Lydia E. Pinkham's Vegetable Compound is the only medicine that can cure all kinds of female troubles.

The Power of Pleasant Pills. Lydia E. Pinkham's Vegetable Compound is the only medicine that can cure all kinds of female troubles. It is a safe, reliable, and has thousands of cures to its credit.

Away with these troubles! Lydia E. Pinkham's Vegetable Compound is the only medicine that can cure all kinds of female troubles. It is a safe, reliable, and has thousands of cures to its credit.

(Continued from page 1.)  
 plants are of different types. Each man should study his own land but he cannot expect to succeed without crop rotation.  
 Starting with new land try something like this: (1) flax, (2) wheat (3) meadow, (4) meadow and pasture, (5) corn, (6) wheat or flax.  
 If the corn ground is properly worked flax will probably pay as well as the unplowed corn ground as wheat. Most persons prefer to sow wheat, in which case the flax should follow wheat, the seed being made by thoroughly disking the wheat stubble immediately after harvest without plowing, followed by fall harrowing and early spring harrowing and packing. The next series could then run oats or barley cultivated crop wheat, meadow, pasture, flax. The cultivation is a great purifier, getting rid of the wild organisms. Pasturing and cultivation tend to firm the ground.  
 HARVESTING: Most farmers run their flax for seed purposes by cutting the flax and allowing it to lie in bundles on the ground until all of the straw and seed becomes mouldy and the seed thoroughly infected by canker or other flax root destroying fungi. The advantage of harvesting with a binder rests in the fact that the bolls are kept off the ground.  
 PLAN IS NOT HARD ON LAND: Our experiments have proved from all sides that flax is not particularly destructive to soil from a chemical standpoint. All the troubles which flax growers have had in the past years are essentially due to the introduction of the wild diseases in the soil by way of infected seed and consecutive flax cropping.

**DeVault-Doings**  
 Work that began this morning in the fields and the men are happy. They are predicting a good crop & we sincerely hope they will have a bumper.  
 Fred Grinn made a trip to Fisher Saturday, to bring home his wife and baby. They came as far as this place and left here Sunday for their home near New Salem.  
 Rev. L. M. Stolberg delivered two good sermons Sunday morning and evening in the Big Bend school house.  
 Mr. and Mrs. Otto A. Lusk and family, and Mr. and Mrs. Fred Grinn were pleasantly entertained at dinner a few days ago by Mr. & Mrs. Ota Malone.  
 Miss Maude Rogers began her duties last Wednesday teaching the spring term at the Cryderman school house. She is making her home with Mrs. Julia Weeks.  
 Can any one tell by looking at our general mail carrier Clarence Thorsen that he has some attraction at DeVault? She is a cute one so don't let them bluff you Clarence.  
 Pete Severson began seedling today. Pete is a hustler and likes to get thru with his work. It is all work and no play with him.  
 Rev. I. M. Stjerg and wife visited with P. A. Larson and wife Monday.  
 John Olson went to Almont on Sunday to get his family who just returned from Leaga.  
 Edith Malone daughter of Ois M. Iorg and wife has been sick for two days with a high fever.  
 A number of people from this place were Almont visitors this week.

**ALMONT NEWS NOTES**  
 Cleaned From Here, There and Everywhere.  
 By the Arena Gate-keeper.

Misses Grace Jacobson and Tenn Nelson visited at New Salem two days this week.  
 J. W. Hurley has been improving his drug store by having a new window put in opposite the prescription case. N. Beckland did the work.  
 Jesse Milton of Lark spent a day in town this week. The Arena acknowledges a pleasant call.  
 J. W. Johnson and Mr. Luger of Lark, transacted business in this town a couple of days this week.  
 August Timmerman spent a day at the county seat the first of the week.  
 There is some talk of organizing a gun club for Almont. There are a number of good shots here and almost every day one can hear the reports of the guns where these marksmen are practising on pigeons and other targets.  
 There is a desire on the part of a majority of the people here to have a church, but the matter is not a standstill because none like to take the lead in this matter. A committee should be called and a committee set to work to put the matter before the people as it should be and there is scarcely a doubt of the fulfillment of the wishes of the people.  
 Sheriff Oscar Olson transacted some business connected with his office in this place, Tuesday.  
 J. H. Lammann has been moving his machinery out to his farm during the last week.  
 Mrs. Marsad who has been living in this vicinity for several years left for their new home in Canada, the first of the week. Mr. Marsad has been there for some time and getting the home in readiness for the family.  
 World's Work \$3.00 a year. Almont Arena \$1.50 a year. Both for \$3.25.  
 Read the Almont Arena.  
 Buy your magazine subscriptions at the Arena office. All the standard magazines are listed.  
 M. A. Gillis, P. T. Halverson and Fritz Holritz are planning to leave for Canada, the twenty-fourth of the month. It is understood, Mr. Halverson contemplates filling on a business and the other two have not definitely decided upon what course they will pursue until on the ground. While the people will be sorry to see them go, yet all join in wishing them prosperity in that new land of fortune.  
 You cannot afford to run any risk of losing your property by fire. We write farm insurance in the very best of companies. Farmers Bank.  
 Superintendent of schools, Lerin was an Almont visitor, Thursday.  
 Deputy State Inspector Wellman transacted business in this place one day this week.  
 Ralph Larson who has been in August Timmerman's general store will make a trip to the Canadian Northwest, the latter part of this month.  
 Don't gamble with providence. Play safe by taking out a policy protecting you against fire loss. We represent several of the leading companies of the world.  
 Farmers State Bank.  
 C. Hockett of Carl, transacted business with Almontians Wednesday.  
 Note the change of ad for Fred Holter and sons. It is reasonable and they are offering reasonable merchandise.  
 O. C. Peterson spent two days this week at Bismarck, looking after his business.
