LARK

Lark Celebrates First Birthday. Best Little Town in Southern Morton County One Year Old.

On Thursday of this week, Lark celebrated its first anniversary. Just one year ago the town was born, and no one present at the celebration failed to notice the growth it had made. Nearly three thousand people were present and they were entertained every minute from early in the forenoon until after midnight.

The first event of the day was a ball game between the Heart River team and Carson. This game resulted in a score of five to fourteen in favor of the Carson team. The first half of the game was a close one, and not until the last few innings did either team have advantage.

The afternoon was devoted to races and a ball game between Flasher and Carson, the winning team of the forenoon. The running race was won by Ben Bird of this place, Rudolph Olson taking second. The pony race was won by William Tucker. The mule race and oxen race furnished considerable amusement for the crowd as did the broncho busting act. After the races the crowd was entertained on main street with foot races, sack races, and other stunts.

The feature of the day was the ball game between Flasher and Carson. Before the game it was practically conceded that Flasher would carry off the honors and several bets were offered that they would beat the "Farmers". It did not take long for them to learn however that the "Farmers" were there with the goods, and six innings were played before a score was put across and then it was Carson that claimed the tally. Flasher then braced up and landed a couple of scores and they were in the lead until the last inning when Carson run in a winning score and quit the game. Considerable satisfaction was expressed by the crowd over the outcome of the game. Flasher was there with a big lunch of rooters and there was plenty of excitement as long as the game lasted. No one was certain of winning until the last ball was pitched. The score was three to five in favor of Carson.

From morning till night there was something doing all the time and the promoters of this affair are to be credited with knowing to entertain a crowd of visitors. The entertainment furnished is a fair criterion of the class of people who live in Lark. They are hustlers, and good neighbors, the two factors that are bound to make a good town and place to live. Here's hoping Lark invites us again next year.
