## CAREFULMANAGEMENT-NEEDED IN BREEDING COWS FOR DAIRY

and of Butter and Cheese th to Rep One Reason Why Not Beturn Profit From

A Prize Winning Jersey Helfen.

A Price Winning Jersey Helfen

(By W. M. KELLY)

There is no phase of the dairy business that needs more study or more acraful management than does the breading of this cove.

Upon the cove depeads success or failure and we must, after selecting the took to be harding of her product.

The fact that dairyman are and development of the cover o

or their darrying than to the broading and development of the cours on one of the reasons why so many four dairy breds are not canable of cotorning profit from their food and ceast of attendance.

We are often saked which is the they have been dairy. To such men I would sar, that there is no best breed. Bome think because they have Jerseys they are on the royal read to success. Others think that the Holstelas all thing prosperity to the farm.

This is a sad mistate, for acrube are very common among the purebreds and a purebred for the distribution. This is a sad mistate, for acrube the state of the same than the Holstelas all bring prosperity to the farm.

This is a sad mistate, for acrube the state and estela in starting a herd. Beliet one having foldredual excellence as determined by the Babecch that and a spirm ye be socured if it the animals are of one type of breed and the state of the perpetuits in the berd.

What we dairy sum want is a herd of cowe that will gird a profit at the part of the perpetuits in the berd of cowe that will gird a profit at the part of the profit and the

pest them to thrive on closely cropped, sown with it, as is often tearing positives where they ere compelled to rustle all day to gather settlept food.

Give them the care they were do-calept duete, large amounts of more capped under, large amounts of more capped under the capped under th

aford them, but all farmers are, not take to buy pure-bred. However, always use a pure-bred airs. The brooding buil always represents haif the value of the breeding power of the herd if ill is desiredly prove taives for the dairy. Select them from some of the well-known families of the breed, and be arre that the pode-site propognact which gives promise of being a good call-gatter.

which gives promose acreeing a good cell-getter.

"A buil of this kind will give you croellent results in improving the hard. Some of the best herds in the country are high grades that have ris-suited from the continued use of good

relied from the continued use of good sires.

In order to be successful as breeders we must learn some of the lessons associated with our stock; have an ideal type in our minds and sireys in our extertion and mating be seeding.
