Almont, - - North Dakota.

Almont on the Boom!
Cheer up old friend, don't be downcast.
A first-class repair shop you have at last.
The time seemed long, but now how sweet,
To get your carriages repaired so neat.
For ten long years, the people say,
They had to go twelve miles away.
But now your town you need not pass.
But get your work done up first-class.
We'll paint your buggies and do it right.
And fix the seats up snug and tight.
When you take your best girl out with you,
Well, I guess you'll know what to do.
Now if you need some work this spring,
While waiting for just please call in.
Our wood is good, our iron is fine.
And we'll steer you clear of the cyclone swine.
For fear you might pass our shop,
And patronize some dearer spot,
You'll always find us on demand,
At Angus Gillis' former stand.
G. C. CHAMBERLIN,

GOOD INTERESTING FARMING POINTERS

By the Crop Improvement Committee of Chicago.

Any item pertaining to farming written by local farmers will be published in this column.

ONE KIND OF BARLEY

(By Fred A. Moore.)
The idea of the growing of select barley is not a new one. It is in fact, a very old one. In fact, it is one of the oldest of all the agricultural practices. The idea is to grow a select barley instead of scrub rattles. This is done by selecting the best of the crop and sowing it in limited or careful quantities at a reasonable increase over the regular general market price of barley. By pursuing this method of clearing up the crop several select barleys can be established in each township of the barley growing counties where farmers are able to secure the seed in large or small quantities near at hand. Farmers throughout the state have quickly availed themselves of the opportunity of securing select seed barley from the growers or seedsmen. Through the rapid method of dissemination the select barley is displacing the common varieties that whole country are now growing the pure breed of barley to the exclusion of nearly all other varieties.

LOSS BY SMUT.

About half a million dollars worth of barley is destroyed by smut every year in Wisconsin alone. If you are going to treat smut with hot water, you had better test your thermometer by that at the creamery. A few degrees too hot will kill your barley. Every man should have a barley plot and grow his own seed. Two or three acres will be sufficient to devote to this seed growing.

SIMS SIDELIGHTS

Mr. and Mrs. A. Holritz moved to Almont last Friday evening.

John Land spent last Sunday with his family at Sweet Briar.

Josh Thompson of Almont spent last Sunday with his family at Sims.

Severin Jacobson of Mandan spent last Sunday with relatives in our town.

Aug. Timmerman of Almont spent a couple of days in Sims last week.

J. E. Olin Jr. of Mandan spent a few hours with his parents in this town last Sunday.

Rev. O. N. Gentry returned the latter part of last week from an extended trip to the twin cities and parts in South Dakota.

C. I. Timmerman accompanied by civil engineer, E. J. Taylor of Livingston, spent a few hours in Sims last Saturday, locating new land which he is planning to acquire.

Ole Ohnstad and family were in Sims last Sunday. They brought with them the first news of the death of one of the year old sons of Mrs. Mrs. O. Morrison and James Morrison.

CRUIS BARLEY

There is a new kind of barley growing in the Heart River country. It is called "Cruis" barley. It is a very good variety and will double your profit. Seedsmen and farmers are advised to grow this variety. It is a very good variety and will double your profit. Seedsmen and farmers are advised to grow this variety.

WHEN TO SOW BARLEY

The best time to sow barley is in the fall. It should be sown in the fall. It should be sown in the fall. It should be sown in the fall. It should be sown in the fall. It should be sown in the fall.

LOOK FOR THE CAUSE

Follow the Advice of Other Women Who Have Had Experience Similar to Yours. Have you ever stopped to consider what is the meaning of the various symptoms from which you are suffering? Certainly the patient who complains of back headaches, loss of appetite, nervousness, shortness of breath must have some cause. It may be a disease in themselves but are complaints and warnings from the different organs of the body that these organs are not being supplied with pure blood and cannot do their daily work.

To be in good health a person must always have good rich blood. Every inch of the body depends upon its nourishment and strength. Knowledge of this fact makes possible a direct treatment for the various ailments from which women suffer. They can cure their troubles by making the blood pure with Dr. Williams' Pink Pills for Pale People.

Mrs. F. N. Kennard, of No. 411 Fifth Street, Minneapolis, Minn., who was completely cured by this remedy, says: "For over a year I was in very poor health. I was very weak and thin and had terrible pains through my back. I would be laid for weeks at a time. My limbs would seem to give out and I would have no control of them. These ailments were reduced in weight to 50 pounds and could not do any work."

"The doctor did not seem to help me and I quit his treatment. It was then a cousin recommended Dr. Williams' Pink Pills for Pale People. I soon felt much better and I soon felt able to go to work. For years I had terrible headaches but since taking the pills these have disappeared. My health is better than it has been in years and I give the credit to Dr. Williams' Pink Pills for Pale People. I would advise all suffering from any of the ailments mentioned by me to try the pills for I know they will relieve them of much misery."

Dr. Williams' Pink Pills for Pale People should be used in anemia, chlorosis or green sickness, sick headache, and for nervousness in the stomach, indigestion, general debility, or any disorder, postpaid, on receipt of price. 60 cents per box; six boxes for \$3.00 by the Dr. Williams' Medicine Company, Brockton, N. Y.

Our new booklet, "Plain Talks to Women," will be sent free on request.

It's wonderful what large catalogues from small garden seeds will grow.

NO SILVER SERVICE.

Vet Adorns Mezereum of Foot Just Now to Government on

There is a statement on foot just now to the effect that the debt in the funds from this state to pay for the silver service for the battleship North Dakota. Despite the fact that the committee has been working for three years—its bill still \$3,500 short of having enough money to pay for the battleship North Dakota's service—and for the expense of conducting the financial campaign. The battleship has been on the sea for two years, making her progress without the least incident of the kind which was expected. The committee has passed by the committee.

This is in sharp contrast to the record made by the battleship Florida when the committee of that state. The keel of the Florida was laid when the North Dakota silver service was ordered, but that ship was prepared for the sea in 1901. The residents of the state have all paid their assessments, and the silver service is now occupying its place on the coast.

With a total of \$1,392,410 paid into the fund, since the committee was organized in September, 1909, the amount contributed is still \$1,500 below the figure needed. The money received to date represents a total of 9,845 individual contributions, some of them as large as \$1,000. The P. O. A. H. of Bemarck, which contributed \$25, holds the record for the largest contribution. They swelled the fund in this county to \$15,000, making Burleigh county \$9,550 over the one of ten counties in the state that is over the amount assessed. Sully and Wells have paid their assessments of \$255,000 and \$212,000 respectively. Hunt county, which was assessed \$125,000 and in respect, which was assessed \$158, have not contributed anything as yet.

COURT FOR 8 MONTHS.

Legal Business in Cass County is Heavy as Shown by the Calendar.

Fargo.—Continued court for eight months will be the record of Cass county when the April term is finished. Since September district court has been continuously in session and cases are piled in from all sides. The January calendar was the heaviest in years. The April calendar is not so heavy, but in various cases, it has included all of which are court cases, that is there will be no jury to try them. The September term was taken up in the January term and the January term continued until last evening when court adjourned and also and will open the April term at 8:20 o'clock this morning when the calendar will be called.

GRAIN LOOKS FINE.

Farmers Pleased With Results of Winter Wheat.

Bismarck.—Many of the farmers of this section of the state are commencing to realize the good results that may be obtained from sowing winter wheat. County Superintendent Vigness is in receipt of a letter from O. J. Magnusson, who resides in the northern part of Burleigh county. Mr. Magnusson states that last fall he put in twenty acres of red turkey winter wheat and also twelve acres of Prussia winter wheat. He states that in coming on very dry, fine, and wintered well. The cereals were sown during the last week in August. It was stubble, with a single disc press drill. There are a number of other farmers who sowed winter wheat and the results are reported to be excellent. Mr. Magnusson is becoming interested in the dairy industry and corn raising, and it is expected that there will be several other dairies in Burleigh county this summer. When these methods are employed, instead of the attempt to raise a single crop of wheat or other small grain, the prosperity of the county will be permanently assured.

WING THE CONTEST.

James Sharpe of Fargo College is Champion Orator.

Washington.—James Sharpe of Fargo college won the North Dakota contest, a grateful championship, defeating his competitors at the state school.

Osmond.—The agricultural college was recently George Shady of the state university, winner of the honor of the Washington school of science was fourth.

COWS ARE PROFITABLE.

Belvidere County Man Pays All His Expenses With Cattle.

Belvidere.—For several years the dairy-cowman from the North Dakota agricultural college is "divorced" since giving a short talk with Alex. Menly one of the dairy-well known bonanza farmers in the great Belvidere county, we are more fully convinced than ever, that any man who knows anything about his cows, and to feed such a substantial he will put add a few milk-cows to his farm stock. Hard times may come, and hard times may go, but the farm will turn a small number of his acres into pasture for dairy purposes become acquainted with the fact and not by reading it in the several periodicals that are sent to him, but by seeing the cow and the milk; his purse is well replenished at the first of every month by the proceeds from his cows. It means a small farmer—operating on all 500 acres. To properly farm an acreage of such proportion, considerable help is needed, and to feed such a substantial he will put add a few milk-cows to his farm stock. Hard times may come, and hard times may go, but the farm will turn a small number of his acres into pasture for dairy purposes become acquainted with the fact and not by reading it in the several periodicals that are sent to him, but by seeing the cow and the milk; his purse is well replenished at the first of every month by the proceeds from his cows.

Last year was poor for the man who sowed his last acre and grain, and this spring found many without sufficient cash to purchase the necessities of life for themselves and families. How different it is with men like Mr. Menly; they are able to hitch up their drivers and come to town with their dependency on a man who can walk up to the merchant and say "I want so and so" and have the cash to pay for it. And the Times would like to see every farmer in this fertile district follow the example, and next year at this time each and every farm being taken care of by the heavy cow. A little more work and a great deal of cash for to let the cow pay the bills, the money received for your grain after harvest can be used for improvements on the place and for your credit in all of the money. A passing glance at Mr. Menly's pastoral farm here is proof that the above article is founded on facts.

Chas. F. Kellogg of New Salem, has his announcement in this issue of the Arena as a candidate for the legislature from the 47th district. Mr. Kellogg is a banker at that city and also a good Morton county booster. He has ability and by giving him your vote you can rest assured that he will take care of all legislation in the best possible manner.

Our fellow townsman Ben Bird has his announcement in this issue as a candidate for sheriff of Morton county. Mr. Bird has been a resident of this county for many years and as he has been a deputy sheriff for some time he knows the ropes of that office well. Ben's many friends around these parts wish him success combined with plenty of votes.

John I. Rovig of Mandan, this week, announces himself a candidate for the office of register of deeds of Morton county. Mr. Rovig has been deputy sheriff during the past term and should make a good man for the office. If elected Mr. Rovig promises to give the office his best attention and we believe he will do just as he says.

HARVESTING AND THRESHING
Barley Needs the Most Careful Handling.
(By L. R. Zornal)
The value of barley for malting purposes depends on the color and soundness, also on the test of germination as all malting barley must be germinated in the millhouse and prices are paid for it accordingly, therefore it is well to let barley ripen well as it gives a better germinating test.
BARLEY IN ROTATION.
The proper rotation for barley in the northern county is—barley, following corn, peas, potatoes or root crop. Barley is one of the best winter crops to use where the desire is to seed down the clover or mixed grasses.
It should not follow heavy clover. This is more true of barley than other of our common cereals. An excellent rotation is clover and timothy two years, corn one year followed next by barley, and grain seedling mature heavily on sud one year in four but not the barley year.

Absolute Protection is Guaranteed
All Our Customers.
OUR AIM is to give satisfaction. We believe this to be the only rule of a successful business policy. Our reputation has been built on square dealings.
THE RESULT is that dissatisfied customers are unknown. Our piano exchange guarantee protects our customers absolutely on any instrument purchased from us.
WE CARRY the largest line of High Grade Pianos in the Northwest guaranteed by ourselves and the factories, and our guarantee is good, backed by a \$4 million of dollars.
WE FIND that one sale brings another, that our customers are our friends—that our friends are our customers. Join the ranks and be one of them. Free catalogue of **EVERYTHING KNOWN IN MUSIC** FOR THE ASKING.
