

NEWS OF THE WEEK

CONDENSATIONS OF GREATER OR LESSER IMPORTANCE.

A BOILING-DOWN OF EVENTS

National, Political, Personal and Other Matters in Brief Form for All Classes of Readers.

WASHINGTON.

Representative Nelson introduced a bill to prohibit interstate shipment of convict-made goods.

Representative Barclay has introduced a bill proposing more severe penalties for offenders against the Sherman anti-trust law.

The house passed a bill appropriating expenses of the American delegation to the international alcoholic conference at Milan, Italy, next month.

Chairman Clayton of the House judiciary committee introduced a resolution asking the investigation of charges against Federal Judge Spear of Georgia.

In response to the Sutherland resolution Secretary McAdoo submitted a report showing nearly \$10,000,000 would be saved by importers holding goods in bonded warehouses for the new tariff.

Representative Johnson of Washington has introduced a resolution questioning the president's negotiation with British and Canadian governments for railway connections between the United States and Alaska.

Attempts to increase the limit of the proposed income tax by the larger income classes, based on the report of Senators Borah, Bristow, and Cummins led an effort to amend the income tax section of the democratic tariff bill.

Representative Underwood, democratic house leader, has issued a statement deploring the delay of the administration currency measure has met in the democratic caucus through the absence of a sufficient number of majority members to bring the measure to a final vote.

A contract for 3,800 tons of armor plate for the newest American dreadnaught, now under construction, has been awarded by the Navy department to the Carbon Steel company of Pittsburgh, at \$18.04 per ton, a reduction of 14.33, or 18 per cent under the last accepted bid for this material.

Slavery in the full meaning of the word exists throughout the Philip islands, and in the island of Cebu, according to a special report Commissioner Dean Worcester has made to the insular government. It has not been received by the war department, but copies are in the hands of other officials.

Amendments offered to the tariff bill by the Nebraska senators would, if adopted, not only nullify the treaty, but would disintegrate the huge fortunes which have resulted from monopolistic production. Senator Hitchcock introduced an amendment for his proposal for a graduated tax on monopolistic production and Senator Norcross offered an inheritance tax amendment of extremely drastic purport.

DOMESTIC.

Eastern steamship offices report 20,000 reservations already made by Americans for trips to the Panama canal next winter. Last winter's rush was only a starter.

The value of the grindstones and pulpstones produced in the United States last year was the greatest in the history of the industry.

George A. Hartman, the topi, who was recently isolated at quarantine camp near St. Louis, has occupied for the second time since he was taken to the quarantine camp, less than three weeks ago.

Woman suffrage in New Jersey received a setback of at least one year through an opinion by Assistant Attorney General Cassell that the failure properly to advertise the proposed change in the state's constitution rendered impossible the ratification of suffrage by the state's legislature.

Advices from China to Catholic officials in San Francisco, tell of the death of Father Francis Bernat, a Franciscan missionary, at the hands of Chinese fanatics in a remote region of North Szechuan on June 13 last.

John D. Jr. gave a 10-cent tip to a waiter in Boston.

Senator Boies Penrose is 63, an age at which a man's vocal fighting powers are near the meridian.

With Governor George W. Clarke of the state of Iowa to welcome visitors to the Hawkeyes and Mayor J. P. Rice extending the band of fellowship in behalf of the city, the Kookuk and Hamilton power dam was formally dedicated.

A. C. Wells, government animal inspector at St. Louis, has announced that there are several thousand cases of hog cholera in the district known as Missouri point, across the Mississippi river from Alton, Ill. The district is quarantined.

The second of the now nationally known Digg-Campanelli cases, the trial of R. D. Campanelli, who must face the charges of violating the Mann white slave act, under which his companion Mary T. Digg, was convicted, was started in the United States district court before Judge William C. Van Fleet.

Practical and applied hygiene is much farther advanced in the Philippines than in the United States, according to Dr. Allan J. McLaughlin, surgeon of the United States public health service, who was one of the speakers at the sessions of the fourth international congress on school hygiene at Buffalo.

"The people must be back of all national and international arbitrations and settlements of disputes in order that they may be successful," said Lindley M. Garrison, secretary of war, in an address before the Commercial club at Kansas City. "Differences between nations should be handled diplomatically and we should never act to hastily. I am opposed to war."

WAR ECHOES.

An Exchange Telegraph company dispatch from Shanghai announces that Nanking has fallen, depriving the rebels of their last stronghold.

A long dispatch to London from Constantinople gives details of negotiations between Turkey and Bulgaria by which it is said the latter has relinquished claim to Adrianople in return for compensation elsewhere.

The great parade with which President Gomez demonstrated the strength of his military arm at Maracay was an unusual spectacle. A group of twenty political prisoners representing the entire revolution were marched into Maracay from the barracks at Tapachula, three miles away, with 6,000 loyal soldiers as their escort. President Gomez hoped to show by the demonstration how futile were seditious plots.

FOREIGN.

Fifty-five great irrigation projects, involving nearly 10,000,000 acres of land, are under consideration for India.

According to records of the secretary of state's office there are 40,814 automobiles in the state of Nebraska in use.

Articles for the world's lightweight championship bout, at Vancouver, B. C. between Willie Ritchie and Freddie Walsh, September 20, have been signed.

The Grand Cross of the Order of Orange-Nassau has been conferred on Andrew Carnegie by Queen Wilhelmina of the Netherlands in commemoration of the inauguration of the Palace of Peace.

Paris (France) Journal says that Jack Johnson, the American pugilist, has purchased a house at Joinville La Pout, six miles from Paris, where he intends to reside for the remainder of his life to become a naturalized citizen of France.

Harry K. Thaw was won three victories, over the New York state and the Sherbrooke Jail, immune, for the time being, from the Dominion immigration authorities; after receiving an ovation from the townspeople of Sherbrooke that would have done credit to a prince of the royal blood.

D. J. Cairnes, Canadian government geologist, who has just returned from the Shushanna, Alaska gold district, has issued a signed statement, warning persons against stampeding to the district.

Rumors which have been current of a truce between the militant suffragettes and the British government seem to find support in a letter written by Mrs. Parkhurst to her followers advising them to take a holiday for the present.

FAST TRAINS CRASH

16-KILLED, 50 HURT

LOCOMOTIVE PLUNGED THROUGH PULLMAN, CRUSHING SLEEPING PASSENGERS.

FAILED TO SEE BLOCK SIGNAL

Only About One-Half of the Dead Have Been Identified—Book of Collision Terrific.

New Haven, Conn., Sept. 3.—Thirteen persons lost their lives and forty were injured when the White Mountain express, bound for New York, crashed into the rear end of the second section of the Bar Harbor limited, bearing sojourners from Maine summer resorts. The wreck occurred on the New Haven railroad, just outside the city limits, shortly before 7 a. m. Tuesday. The number of dead is now according to coroner Mix, including those who died in hospitals, was sixteen. The injured number about fifty. All the dead and injured were in the three rear sleeping cars of the Bar Harbor train. No one was seriously injured on the White Mountain.

Only about one-half of the dead have been identified. All the passengers were in their night clothes when the collision came, making identification difficult. Coroner Mix directed that the bodies be collected at a local streetcar barn as a temporary morgue and began at once an inquiry to determine the identity of the dead.

Several of the bodies are those of boys who were members of a camping party returning from Moonish, Me.

Failed to see Block Signal. Failed to see a block signal veiled in a thick fog is given as cause of the accident by Engineer A. B. Miller, who says that as soon as he realized the danger he did all he could to stop the train. The brakes would not hold on the wet track and the train, running down grade, plowed its way through two wooden Pullman cars, splintered them and killed or wounded most of the sleeping passengers in their berths. The accident occurred at Stamford, Conn., when a second section train failed to take its brakes and overran a block, dealing death to passengers of the first section.

Victims' Bodies Mangled.

The bodies of most of the victims were mangled. The shock of the collision was so terrific that linen and bed clothing from the berths in the sleepers was swept out of the broken windows and carried to the telegraph wires and poles near by, where it still hung when the wrecking and other work on the berths in the sleepers was completed. The wreckage was so severely crushed by the collision, it proceeded on its way after a few hours' delay, arriving at the station here at 9:40 a. m. and proceeding on to New York.

Engineer Sticks to Post. The engine stuck to his post and was only slightly hurt. The two sleepers, which were crushed by the impact of engine No. 1237, were reduced to splinters. The locomotive ran on top of the wreckage and remained almost upright for a long time.

Four Persons Killed in Iowa Wreck. Oelwein, Iowa, Sept. 3.—Four persons were killed and fifteen injured, most of them severely, when a Rock Island passenger train on the Decorah branch left the rails and plunged fifteen feet down a steep embankment near Maynard, Iowa. The train, making up a train of two miles south of Maynard, the engine left the rails, pulling three coaches with it three lengths before the train crashed over the embankment and rolled over on its side.

Two Killed, Two Hurt, in Wreck. Salt Lake City, Utah, Sept. 3.—Fireman Betts and brakeman Stett were killed, and conductor Moffatt and brakeman Miller were injured when a runaway engine left the track of the Utah Northern extension of the Oregon Short Line and overturned.

Situation Little Changed. Point, Sept. 3.—The fall of Nanking will result in little change in the situation of the rebels there, having been out of and ordered to retreat against great fleets. The government continues playing going slowly in the work of suppressing the remaining rebels in the various provinces.

LIND WILL STAY IN MEXICO

IS WAITING FOR A CHANGE IN THE SITUATION.

Special Envoy Awaiting for Huerta to Make the Next Move in the Situation.

Washington, Sept. 3.—Secretary Bryan remained at the state department for news from Mexico until a few minutes before his train left for the Maryland shore, where he is expected to arrive in the evening. He declared that nothing had been received except messages relating to the movement of American citizens in the southern republic.

Earlier in the day the secretary had conferred with Senator Bacon, chairman of the foreign relations committee, and both stated no further suggestion had been made by Special Envoy Lind to the Huerta government, and that no overtures from the Mexican side had been made.

The care of American citizens refugees from Mexico was the subject of routine messages between the department and American officials in Mexico and along the border. Red Cross authorities at New Orleans were notified during the day that Americans from Mexico arriving at that port in need of assistance should be helped to reach their homes in this country.

It was said that John Lind, the American special envoy in Mexico, would remain in Vera Cruz indefinitely; that he was not contemplating any immediate move and merely was waiting for a change in the situation which it was calculated would not be instigated him nor by any move from Washington.

GIRL IS SHOT IN STRIKE RIOT

Deputies Who Participated in Calumet Battle Are Announced as Murderers.

Calumet, Mich., Sept. 3.—Margaret Fusteka, 16 years old, was shot in a battle between copper mine strikers and deputies at the North Star mine when it is not expected to live. None of the 12 deputies who participated in the strike has been arrested. The shooting was denounced as murder at a labor day mass meeting held at Hancock, at which President Hoyer and other officials of the Western Federation of Miners spoke.

Brief Telegraph Sitings

Prairie Chickens Plentiful. Miller, D. C., Sept. 3.—Prairie chickens so plentiful and so tame that automobiles have to be slowed up in order to prevent running over birds as reported in several instances.

One Killed, Four Dying. Roseau, Minn., Sept. 3.—A threshing engine boiler belonging to Norquist Brothers, living four miles north of Roseau, blew up, killing one man and fatally injuring four others.

Sister's Annoys Sain. Detroit, Mich., Sept. 3.—After attending his victims of forcing their attentions upon his sister, Kasmer Wilczek shot and killed John Norwick, the aged wife of the victim, Louis Lucas and then killed himself.

Municipal Ownership Urged. Washington, Sept. 3.—Municipal ownership of street railways in the nation's capital, since the outright purchase of condemnation, was provided in a bill introduced in the house by Representative Crozier of Ohio.

Cannibals Kill—Mineralogist. Brisbane, Australia, Sept. 3.—Word has reached here that John Henry Warner, a mineralogist of German-American descent, was killed and eaten by cannibals in an unexplored region of Papua.

Iowan Robbed of \$44,000. Waverly, Iowa, Sept. 3.—Bloodhounds were used in an effort to solve the theft of \$44,000 in cash and securities taken from the baggage of Secretary Woodruff, a bachelor, and one of the wealthiest men in this section.

Two Killed, Two Hurt, in Wreck. Salt Lake City, Utah, Sept. 3.—Fireman Betts and brakeman Stett were killed, and conductor Moffatt and brakeman Miller were injured when a runaway engine left the track of the Utah Northern extension of the Oregon Short Line and overturned.

1,871,131 Dollars Than 1910. New Orleans, Sept. 3.—The metropolitan area for the year ended Aug. 31, 1911, amounted to \$1,871,131,000, according to a report submitted by Secretary Hester of the New Orleans cotton exchange, published in the weekly Bulletin of the Cotton Exchange, a daily publication, compared with \$1,711,131,000 in 1910, and an increase of 9.34 per cent over the year before.

MEXICO PROTECTS AMERICAN CITIZENS

SUGGESTIONS OF INTERVENTION RESULT IN REASSURING OF WASHINGTON.

HALE TO REPORT WEDNESDAY

Lind Remains in Vera Cruz, But Little Change is Seen—Felix Diaz' Candidacy May Help in Solving Peace Puzzle.

Douglas, Ariz., Sept. 3.—Telegraphic advices from Mexico in reply to telegrams from Washington that the treatment of Americans courted intervention on the part of the United States, were to the effect that "all Americans and other foreigners would be protected in life and property to the letter in northern Mexico."

On His Way to Washington. Vera Cruz, Dr. William Bayard Hale, who is now on his way to Washington and should arrive there Tuesday or Wednesday, is expected to place before President Wilson and Secretary of State Bryan important facts in the Mexican situation which have had a bearing on the negotiations between the two countries. John Lind, is still here awaiting instructions from Washington, but so far has not received any indications from the American government that it would be willing to make more concessions to the American demands.

It was considered not improbable that Foreign Minister Gamba's explanation that General Huerta could not become a candidate for the presidency at the next elections because of the constitutional amendment during the Madrazo administration, might be construed by the American representative as an assurance that he would withdraw definitely from the active power after October at the latest, but Mr. Lind is fully cognizant that the Mexican institution does not prevent General Huerta from resigning and thus rendering himself eligible for the presidency.

Diaz Candidacy Gives Hope. The announcement that General Felix Diaz may return in time to make a fight for election offers some hope for a settlement, but it is generally regarded as doubtful whether the election of General Diaz, or any other man in whose choice the rebels do not join would go far toward restoring peace in Mexico.

Huerta Stirs Up Mexicans. Mexico City.—A new wave of patriotism appears to be sweeping over Mexico, and from many states and from all classes of Mexicans assurances of allegiance and offers of service are being received daily by President Huerta and his minister of war.

Plans are being made for as large a display as possible of military strength on Oct. 16, Independence Day, when it is proposed to hold a big parade, in which 20,000 are expected to march. The war department has been called on to furnish military instructors to a dozen cities, and the offering of service against the revolutionists has given away before a later patriotic ardor. Thousands of men of all ages are asking to be drilled in the use of arms.

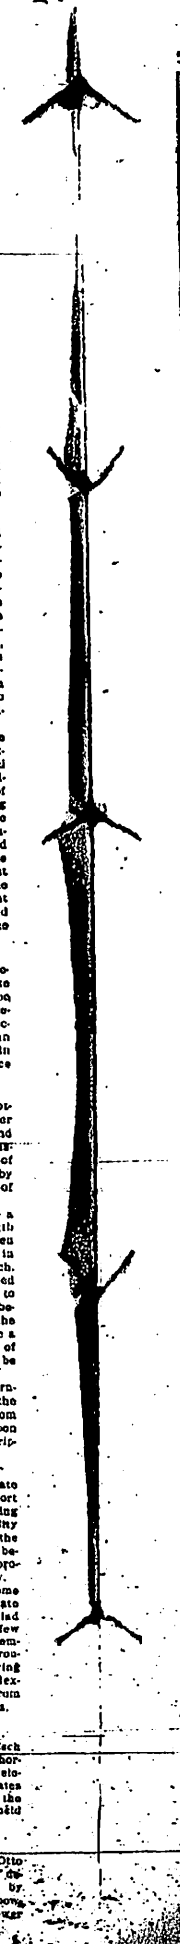

Not in the Aid of the government confidence offers to plants in the ranks. A delegation of planters from the state of Morelos has waited upon the president and tendered a subscription of 3,000,000 pesos.

Bryan Stays and Watches. Washington.—Secretary of State Bryan upon his return from a short "incognito" trip announced that nothing had been received from Mexico City to cause any alarm or to change the diplomatic situation that exists between this government and Mexico City.

The secretary remained at his home all day keeping in touch with the state department by telephone and was glad of the opportunity to rest. A few messages were received from the embassy at Mexico City relating to routine developments, such as supplying Americans with means to leave Mexico, and a brief message came from Special Envoy Lind, at Vera Cruz.

U. S. May Send Delegates. Washington.—Representative Eech of Wisconsin introduced a bill authorizing the president to appoint delegates to represent the United States at the international congress of the "World Peace Federation," to be held at Minneapolis, Nov. 10-12.

Marriage Woman Ends Life. Philadelphia, Miss., Sept. 3.—Mrs. Otto Schmitt, 40 years old, was found dead in her bed, apparently by taking an overdose of chloroform, and the body of the woman was found with two children alive.

News of North Dakota

Telegraph Items of General Interest Gathered From All Sections of the Flickertail State.

TOURISTS HAVE AN ACCIDENT

Automobile Covering 621 Miles in Twenty-Hour Wrack.

Fargo.—The Cadillac "round the state" tour came to grief six miles south of Carrington. The car met a water wagon on a new grade. The driver signaled the tourists to come along but there was not room on the grade and the car jumped to topsoil over. Revolvers were dumped and landed in a slough, but Driver Richard, in order to save the party from injury, turned the head of the car down the steep grade. None of the party were injured except White, who was thoroughly soaked. When the car was pulled out it was discovered the engine was hopelessly wrecked and the rest of the tour was abandoned. Traveling over North Dakota dirt roads, many of them new and recently graded, the Cadillac tourists made 474 1/2 miles in thirteen hours and twenty minutes. This was an average of thirty-three and one-half miles an hour. The best time was made by Horton, driving from Fargo to Devils Lake. McDonald also did well driving from Devils Lake to Minnetonka and Richard was doing fine work from Minnetonka to Jamestown when the accident occurred. Manager Horton of the Horton Motor company, while greatly disappointed at the failure to "complete the last part of the run, is pleased over the splendid showing of the Cadillac under such a severe test. The car used was a 1913 model and forty-five horsepower four cylinder. It is probable that another attempt will be made later if weather conditions remain favorable for awhile.

IGNORE "FULL VALUE" LAW.

Best Lands in North Dakota Assessed at Only \$7.56 an Acre.

Bismarck.—Class county lands are assessed the highest of any in the state, the state board of equalization, in session here, fixing the assessment at \$7.56 an acre. Trail is second, with values of \$7.43. These figures are interesting in view of the fact that the state constitution provides that all properties shall be taxed at their full value. No attempt has ever been made to comply with this provision. The state board has increased the assessments this year on farm lands, structures on lands, city lots and structures on city lots, a total of \$1,575,774.

NEW ROCKFORD IS GROWING.

Good Crop and Railway Building Aid in Forward Movement.

New Rockford.—With good crop prospects, and with New Rockford assuming new importance as a railroad center, much building is under way here. New Rockford is at a commanding point on the new Fargo-Minnetonka cut-off, and it also will be the terminus of the Lewiston line. The more important building projects include extensive stockyards for the Great Northern; several elevators; a Methodist church, and a Catholic school, while about eighty new residences have been erected. The city also will soon have a white way ornamental lighting system.

WHEAT AVERAGES 10 BUSHELS.

Yields Around Churches Ferry Are Generally Light Especially on Sandy Soils.

Churches Ferry.—Three hundred and twenty acres of fine wheat on Williams Engelhorn's farm, near Churches Ferry, is threshing fifteen bushels of excellent corn and nearly fifty-eight and a half pounds in spite of a trace of wild oats. This, however, is an exceptional yield. A neighboring field of barley, for instance, which looked like thirty bushels, is threshing out only about fourteen. The wheat average around here will not be over ten bushels, and next spring the crop will be very light, especially on the sandy soils.

SHORTAGES ALL MADE UP.

Bargent County May Not Prosecute Former Register and Auditor.

Forman.—Whether the former register of deeds and the former auditor shall be prosecuted is the chief subject of interest in Bargent county. Opinion is divided. Former Register of Deeds Warriner had a shortage of nearly \$1,000. The county was reimbursed and no effort so far has been made to prosecute. R. P. Irving, who was auditor, paid about \$800 to the county before his departure for California. There is absolutely nothing political in the matter. Many people feel that as long as the county lost nothing there should be no prosecutions. While register of deeds Warriner affiliated with neither faction of the republican party, but last year, when he was elected a member of the legislature, he ran as a progressive republican.

6 NEW NORTH DAKOTA BANKS.

Organization Makes Total Launched in Month Near Twenty-Minneapolis Interested in Two.

Bismarck.—Six more new banks have been founded in North Dakota. This brings the total of new banks organized in the month to nearly twenty, the record for several years. The new banks are: Commercial State Bank, 2nd and 3rd, capital, \$100,000; Investment Co. Bank, 1st and 2nd, capital, \$100,000; State Bank of North Dakota, 1st and 2nd, capital, \$100,000; First National Bank of Bismarck, 1st and 2nd, capital, \$100,000; First National Bank of Minnetonka, 1st and 2nd, capital, \$100,000; First National Bank of Devils Lake, 1st and 2nd, capital, \$100,000.

LADD IS FOR ENFORCEMENT

Commissioner Will Make Cold Storage Men Live Up to the Law.

Fargo.—The enforcement of the new cold storage law is being taken up by Pure Food Commissioner Ladd, who avers that every dealer in the state is violating the law as many of the cold storage plants have secured licenses. Among the requirements are that any meats that have been held thirty days are under the provisions of the law; no goods must be kept longer than twelve months; signs must be displayed showing cold storage products are sold and every package or container sent out must be marked. Hotels, restaurants and private storage plants do not come within the statute. Notice has been served on the commission that unless owners of plants conform to the law prosecutions will be instituted.

Dog Saves Life of N. D. Girl.

Argus.—Cared by an infuriated black dog, the twelve-year-old daughter of Alfred Hanson of May Burtis owes her life to a dog that accompanied her to the pasture. She was walking through the herd of cattle when attacked. She was terribly hurt, zabs being cut in her thigh and abdomen by the bull's horns and her body was a mass of bruises. Twice the dog attacked the animal until the girl could crawl away. She is in a serious condition, but may recover.

Says Negroes Made Him Rob.

Fargo.—Dewitt Wilcox, the young white man arrested here in a raid on an alleged negro opium joint, has been identified as one of three men who hold up three white men. Wilcox says that just before this crime he had been held up by the three negroes, two of whom compelled him to rob the three men. Wilcox said he recently left the Florida penitentiary, where he was held for five years on charge of shooting two negroes.

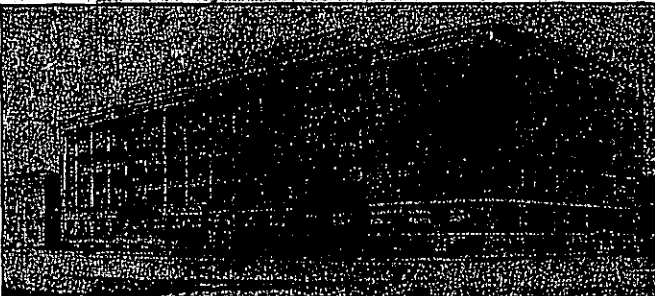

To Take Long Trip in Launch.

White Earth, N. D., Sept. 3.—Horace Tracey of Grinnell and his nephew are building a launch on the Missouri in which they intend to make a trip this winter to New Orleans. They will start soon as they want to get well down the river before cold weather. After reaching New Orleans they intend to go to the Panama canal zone and will return up the west coast as far as Seattle or Vancouver.

Woman Kills Big Snake.

Okaton, S. D.—To be thrown from a horse almost directly upon a moosey rattlesnake, but striking him with a pitchfork, was the experience of Mrs. Henry Skirwood, wife of a rancher living in this vicinity. Catching her horse, she took the bridle from Ruby the cowboy when she attacked the rattlesnake and killed it.

AN IMMENSE NEW INDUSTRIAL PLANT FOR CHICAGO

When completed, the new plant of the Calumet Baking Powder Company, now under course of construction, at South 4th street and Fillmore street, will prove a fitting monument to the ability, honesty and progressiveness which have rendered possible the tremendous growth of one of Chicago's most prominent industrial institutions. This immense plant, the estimated cost of which is \$250,000, is a six-story fire-proof concrete building, 52x100 feet. One of the novel and interesting features of this, the largest and most efficiently equipped baking powder plant in existence, will be a cantilever shipping platform projecting over to a switch track on a level with the second floor. Automatic machinery, modern appliances and passenger and freight elevators of the latest type will be installed and employed in manufacturing and handling the company's product. Plans which make possible a maximum amount of glass area and the highest degree of sanitation have been carefully and scientifically prepared. Spacious and splendidly appointed rest rooms are provided for employees. One entire floor will be devoted to laboratory and research equipment. The installation of a modern bakery for experiment purposes insures the

maintenance of the high standard of excellence for which Calumet Baking Powder is famed. The Calumet Baking Powder Company was organized a quarter of a century ago by Mr. Wm. M. Wright. The company first began the manufacture of baking powder in a comparatively small way, with limited capital. Modern methods, combined with high grade materials and an unwavering determination to produce an article of superior quality have created a demand which necessitated the erection of the new Calumet plant. The new Calumet Company a substantial factor in the industrial life of Chicago, and won for it a patronage which is a benefit and a credit to the city.—ADY.

Inferno. "We all ought to eat suitable food." "Indeed? Then I suppose you indulge dog biscuit." DR. J. M. RINDLAUB (Specialist), Eye, Ear, Nose and Throat, Fargo, N. D. Many birds from their sounds without opening their bills. The pigeon is a well-known instance of this.

TIME A MATTER OF MOMENT

Something Poultry Dealer Had Forgotten to Explain to His Very Much Disappointed Patron.

Mr. Timkins of East Grand had sought six new hens from a poultry dealer in Plainfield. "Didn't you tell me that you got as many as ten and twelve eggs a day from them?" asked Mr. Timkins a few weeks later. "That's what I told you," said the Plainfield man. "I've had those chickens several weeks now and I never got more than four eggs on any one day. How do you account for that?" "Well, I don't know," said the gullible dealer, "unless it's because you look too after. If you would look only once every three days, you would probably get as many as ten or twelve eggs in a single day. Just as I did."—New York Evening Post.

Who Does the Washing?

Precocious Child (to Friend)—I notice a clothes basket going back and forth between your house and Scrubbin's every day. "What of it?" "Do you wash for them or do they wash for you?" "Some claim there are germs in flannel," said the elderly summer girl. "Ever catch anything that way?" "Not even a bead."

LIGHT BREAKS IN Thoughtful Linn Learns About Coffee.

Many people exist in a more or less hazy condition and it often takes years before they realize that tea and coffee are often the cause of the cloudiness, and that there is a simple way to get the light back. A worthy farmer had such an experience and tells about it, in a letter. He says: "For about forty years, I have had indigestion and stomach trouble in various forms. During the last 25 years I would not more than get over one spell of bilious colic until another would be upon me. "The best doctors I could get and all the medicines I could buy, only gave me temporary relief. "Change of climate was tried, without result. I could not sleep nights, had rheumatism and my head would palpitate at times so that it seemed it would jump out of my body. "It came to the conclusion that there was no relief for me and that I was about wound up, when I saw a Postum advertisement. I had always been a coffee drinker, and got an idea from the ad that maybe coffee was the cause of my trouble. "I began to use Postum instead of coffee and to last year when I was 61 I felt like a new man. The rheumatism left me, and I have never had a spell of bilious colic since. "My appetite is good, my digestion never better and I can do more work than before for 40 years. "I haven't tasted coffee since I began with Postum. My wife sees it according to directions and I relish it as well as I ever did coffee, and I was certainly able to eat two meals a day. Name given by Postum Co., Battle Creek, Mich. Write for copy of the little book, 'The Road to Well-being.' Postum comes in two forms. Regular Postum must be well-boiled. Instant Postum is a soluble powder. An exceptional digestive food in a cup of hot water and, with the addition of cream and sugar, makes a delicious beverage instantly. "There's a reason for Postum."

Be Kind to the Animals.

This is the time of the year when domestic animals need most consideration from human beings. The hot weather takes the life out of many a horse that could go on working comfortably for years in a moderate temperature. To the dogs extreme heat is as exhausting as it is to their masters. The cats are not so much affected by the heat, but this is the time of year when the majority of cat owners seem to feel free to go out of town and leave their household pets to the tender mercies of their neighbors. So every city church yard and school yard and every spot in the heart of a city has its population of neglected cats to whom it is a mercy to minister in July and August.—Hartford Times.

Summer Annoyances

such as prickly heat, ivy poisoning, insect bites and offensive perspiration, are quickly relieved by applying Tyro's Antiseptic Powder. 25c. at druggists or write J. S. Tyro, Washington, D. C., for free sample.—ADY.

Among Other Things.

"I suppose you saw many ancient things in Egypt?" "Yes, sir. They had a trolley line there that must have been a thousand years old."—Louisville Courier-Journal.

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that the Signature of Dr. J. C. Feltman is in Use For Over 30 Years. Children Cry for Feltman's Castoria. Not for Him. "My dear sir, I would like to take you apart." "Thank you, but I have had all the operations I care to undergo."

FEEL ALL USED UP?

Does your back ache constantly? Do you have sharp twinges when sleeping or lifting? Do you feel all used up as if you could just go no further? Kidney weakness brings great discomfort. What with backache, headache, dizziness and urinary disturbances it is no wonder one feels all used up. Doan's Kidney Pills have cured thousands of just such cases. It's the best recommended special kidney remedy.

A South Dakota Case

"Every Picture Tells a Story" says a man who says: "I was nearly blind with white, watery eyes. Doan's Kidney Pills cured me. The doctor said my eyes had been paralyzed."

YOU CAN MAKE BIG MONEY

Patents for Invention. You can make big money by patenting your inventions. Write for free information. J. H. P. Patent Office, Buffalo, N. Y.

Catarrhal Fever

FREE TO ALL SUFFERERS. Catarrhal fever is a common ailment, but it is often neglected. It is a disease of the mucous membranes, and it is caused by the action of bacteria. It is a disease that can be cured by the use of Postum. Postum is a food that is rich in vitamins and minerals, and it is a food that is easy to digest. It is a food that is good for the stomach and the bowels, and it is a food that is good for the nerves. It is a food that is good for the heart and the lungs, and it is a food that is good for the skin. It is a food that is good for the whole body. It is a food that is good for the soul. It is a food that is good for the spirit. It is a food that is good for the mind. It is a food that is good for the body. It is a food that is good for the soul. It is a food that is good for the spirit. It is a food that is good for the mind. It is a food that is good for the body.

WINCHESTER

20 GAUGE. HARMLESS REPEATING SHOTGUN. The Model 1911 Winchester is the lightest, strongest and handsomest repeating shotgun on the market. It weighs only about 3 1/2 pounds, yet it has great strength. Because its entire parts throughout are made of nickel steel, it is a two-part, take-down, without loose parts, is simple to operate and the trigger works with an ease that emphasizes its reputation in guns of other makes. Send to Winchester, Springfield, Mass. for your dealer's name. L. H. WRIGHT, NOBLE STEEL, REPEATS.
