Reading---Matthew 2:11, 12

Song-----"The Three Kings of Orient Are"---High School Boys.

Stage-----Mary and Joseph in room with cradle. Wise Men present gifts.

Scene VII (NATIVITY SCENE)

Reading---John 3:16,17

Song-----"Joy to the World"---All characters and Choir members.

Recessional-----"Fairest Lord Jesus"

Pianist-----Caroline Larson

Readers-----Clayton Anderson and Marshall Poland

Mary-----Sharon Olson

Joseph-----Darrell Hoovestal

Wise Men-----Gene Harper, Marvin Ritz, and Larvel Anderson

Shepherds-----Marva Schwimmer, Duana Hoovestal, Ernest Kronberger, John Kronberger

Jerry Nauche, Donald Knutson, and Raymond Zemple.

Angels-----Ramona Knutson, Dolores Kronberger, Clara Doll, Janice Ritz, Wilma Kaelberer, Dorothy Hoovestal, Janet Poland, Laura Harper, Sharon Kurie.

Prop man-----John Hegel

Choir-----Lower Grades

Choir-----High School

Directors---Mrs. Don Klingsmith, Mrs. Karen Notland, and Mrs. Chris Kurie

As written by Jerry Joersz

Upper Grades News

We have our room decorated for Christmas. The fourth grade boys got the tree and the girls decorated it. We all brought decorations and money to buy lights for our tree. The decorations and lights will stay in the primary room to be use from year to year. We have begun wrapping our gifts and putting them under the tree.

We have decorated our room with work we did in art class. On the bulletin board we made a large Christmas tree of old Christmas cards.

Mary Kary was the first to finish coloring the feathers on her Indian bonnet, in spelling class.

Several children have missed school because of sickness. We hope they will be back in time for the Christmas party, on Friday.

The first grade has finished their Junior primers, "Guess Who", and will begin their first Primer, "Fun with Dick and Jane," after Christmas Vacation.

AGRICULTURE FILMS

County agent Mr. Stanley Bale and an office assistant Mr. Kruger from Mandan visited our Agriculture Class on Tuesday morning. Mr. Bale gave a very interesting talk on soil erosion and conservation. He also showed us some educational slides on erosion, conservation, and water control.

Mr. Holle showed us a film strip this morning on The Water Cycle. There are more film strips to be shown the Agriculture class at later dates.

LOST AND FOUND DEPARTMENT

A pair of mittens was found in the girls' washroom shortly after the Flasher vs Almont Basketball game. If anyone is missing a pair, please contact Mr. Holle and give a description of them.

Due to so much illness in the community, we have had a number of absences. But the last few days the attendance has improved.

Now that the Christmas season is here again, we are going through the usual routine that behooves us at this time of the year. We have done some decorating, and our tree is up, decorated and shining brightly each day.

Our Literature Class has covered "The Christmas Carol," "Why the Chimes Rang," and we are now reading "The Other Wise Man," which are appropriate readings for this season.

The 7th grade agriculture class will be ready to take up "Soil and Water Conservation" after the Holidays are over. In Health Class we have some very good free hand drawings of the Eye and parts by the 5th and 6th grades. Also demonstrated drawings of the (start and result) of tooth decay by the 7th grade.

The 5th grade Science class has also done free hand drawings of the Stars.

More Birthdays

- January 6-----Ann Kary
- January 8-----Iona Hoovestad
- January 23-----Shirley Kronberger
- February 26-----Jerry Hegel
- February 28-----Eunice Klingensmith
- March 11-----Leonard Olson
- March 13-----Clayton Anderson
- March 17-----Ray Olin
- March 20-----Ralph Feland
- March 28-----Charleen Reeff
- April 16-----Tarren Hoovestad
- May 4-----James Harper
- May 16-----Stan Knudson
- May 25-----Lavonne Ritz
- May 25-----Leroy Ritz
- May 29-----Lester Hogan

Merry Christmas
and
HAPPY NEW YEAR

TEACHER INTERVIEW

CHRISTMAS PARTY

Mrs. Netland was born Karen Folkward Knudson, in Sandnaes, Norway. When she was five years old, she came to the United States with her brother, sister, and parents. Her father was a sailor.

She graduated from Odell High School, Odell, Illinois. She also attended the Odell Business College; Pleasant View Luthern College in Ottawa, Illinois; El-lendale State Teachers College and Val-ley City State Teachers College.

Mrs. Netland has taught the elementary grades for sixteen years, and has done secretarial work in Davenport, Iowa and for the Board of Administration in Bim-marck, North Dakota.

She has two children, Mrs. June Hu-mann of Kintyre, North Dakota; and Mrs. Pauline Miller of Houston, Texas. Her hobbies are pencil collecting and dish collecting. She also likes to read, and her favorite foods are pumpkin pie and lefse.

Mrs. Netland teaches the fifth sixth, seventh, and eighth Grades. In her room there are 23 students.

* * * * *

SENIOR INTERVIEW

This Senior girl was born January 6, 1934. She has five sisters.

She is vice-President of her senior class, and Senior class editor for the Annual. She played basketball during her Junior year, and was in the Class Plays, 3-4, paper staff -2.

Her favorite sport is Basketball, and her favorite song is "Turn back the Hands of Time."

Her favorite pas-time is playing the piano or dancing. Her pet peeve is sarcastic people. Her ambition is to get a job.

She attended the Glen Ullin High School during her Sophomore year and Almont High School her Freshman, Junior and Senior years.

This fair Miss is-Ann Bernadette Kary.

On the evening of December 17, the high school had their annual Christmas Party.

The time was spent playing games and singing carols. After a lunch of golash, sandwiches, pickles, cake and cocoa, the gifts were distributed by the senior boys.

A beautifully decorated tree furnished the decorations in the assembly.

Due to cold weather we did not go Christ-mas caroling, as was previously planned.

-Gloria Hanson

SENIORS SAY THANKS!

The Senior Class wishes to express their sincerest appreciation to the follow-ing for helping with the play: Mr. Holle, Director; Jarry Hegel and James Harper, who took parts in the play; Ange Kary, Prompter; Caroline Larson, Ann Marie Steg-meier, and Iona Hoowestal, who supplied the entertainment between acts; Mr. Olson, who helped erect the stage; and Mrs. Holle who treated us to a delicious lunch after the Play December 15.

PICTURES

The National Schools Traveling Studio visited the Almont School December 7 th and took pictures of the grade and high school students. The pictures should arrive shortly.

Fresh Foods ALWAYS

At

KNUTSONS'

Gloria, Hasn't Duane (from New Salem) been down to see you lately? Darn anyway!

* * * * *

Caroline! This sliding street corners has been going too far! How much do you think poor Edward can take! (Don't get caught next time!)

* * * * *

What's the matter Clayton?? Don't you have a heater in the back seat of your car????

* * * * *

What's this we hear about the Christmas present Ann S. is going to get from M.S.? Sounded pretty interesting.

* * * * *

Say, by the way. How are LaVone and Leard coming along? Haven't heard anything for a long time.

* * * * *

Clayton don't you know that two-timing doesn't work? Maybe you'll have to go to Selfridge with Stegmeir's instead of Hoo-vestals.

* * * * *

Didn't you keep warm at the show Wednesday night, Joan????????

AND

What's this we hear about Joan being a "(CHEAPSKATE)" ? ? ? ?

* * * * *

Adeline is back to her favorite winter sport. Rabbit Hunting, only this year she rides on the fender.

FIRST SALESMAN: What do you sell?

SECOND SALESMAN: Salt.

FIRST SALESMAN: I'm a salt seller, too.

SECOND SALESMAN: Shake!

* * *

MANAGER: Didn't you apply for a job here a month ago?

Boy: Yes, Sir.

MANAGER: And didn't I tell you we wanted an older boy?

BOY: Yes, sir. That's why I'm back now.

* * *

TEACHER: As we walk out of doors on a cold winter's morning, and look about us, what do we see on every hand?

BRIGHT STUDENT: Gloves!

* * *

BILLY: Mother, Bobby broke a window!

MOTHER: That's terrible! How did he do it?

BILLY: I threw a rock at him and he ducked.

* * *

Desk sergeant: What's your name?

Prisoner: Size Six McFadden.

Desk sergeant: Size Six: What kind of name is that?

Prisoner: Well, that's not my real name.

Desk sergeant: I should hope not. What is your real name?

Prisoner: Size Six-and-seven-eights McFadden.

Desk Sergeant: Eissen, wise guy-----

Prisoner: Honest, that's my name. When I was born, my parents did not know what to call me, so they put a lot of manes in a hat, and that's what my father pulled our a small tag saying Size Six-and-seven-eights.

* * *

JIMMY: After the rain falls, when does it get up again?

Mr. Holle: In dew time, my boy, in dew time.

* * * * *

Lercy: Nurse, may I have a drink of water?

Nurse: Are you thirsty?

Boy: No, I just wanted to see if my throat leaked.

* * * * *

ALMONT VS. SOLEN: The Eagles opened their season with a 35 to 32 win over Solen. Almont held at least a five point margin throughout the game until the closing minutes when Solen crept up to within one point with less than a minute to go. Lester Hogan then broke away from his man for a set-up to ice the game for the Eagles. The box score follows.

EAGLES				
Name	fg.	ft.	pf.	tp.
Ray Olin--F	3	0	0	6

ALMONT OIL CO.

NATIONAL GRAPHITE COMPANY
New York, N.Y.

WHY LUBE PLUS DOES IMPROVE ENGINE PERFORMANCE

For the operating engineer to obtain for his own equipment the priceless service which natural colloidal graphite will render when properly applied, it is necessary that he start with a clear picture of exactly how this service is performed.

Colloidal Graphite is put into millions of engines by suspending it in lubricating oils, or in gasoline or diesel fuel.

This is the most convenient and efficient way of getting graphite to the job. It is not an "additive". It has no more effect on the oil that carries it than the workman riding to his job has on his car tires.

True, when graphite does its job, the performance of the engine it is treating gives a revelation in lubrication.

Graphite has no chemical friends, combines with no other element or group of elements. Therefore, it cannot change the oil or fuel.

The job which natural graphite does is to create for the maintenance engineer a graphoided skin on the metal.

This skin consists of the surface molecules of the metal plus billions of ultra-microscopic particles of colloidal graphite which has been infiltrated between the metal molecules and become attached to them. Once this skin is formed nothing will remove the graphite from the molecules below the surface and only slow wear will thin the film of graphite sticking to the surface.

If the right amount of graphite is kept in the oil lubricant, the metal will never be fully exposed. For as the graphite skin wears thin, electrostatic attraction will pull enough graphite to the metal to cover it.

It takes about 1500 miles of operation on the road to bring an engine to top performance, altho there is usually improved operation noted within an hour or less, especially if the prescription is doubled at the beginning.

A bearing with a graphoided skin is nearly frictionless. It will not get out of line and will not wear out. They are rust proof, quiet and smooth running.
